**(1) Scoring Participation** - Each team member who fishes on a tournament day will count as 3 points for the team. If one team has 5 members fish a tournament day, and another team only has 2 members fish a tournament day, there will be no scoring adjustments to account for such participation discrepancies. This is to encourage member participation.

**(2) Scoring Fishing Success** - Each fish weighed in (referred to as "fish caught") by a team member on a tournament day will also count as a point for the team, however this portion of the scoring **will** factor in participation discrepancies (which are bound to happen). Thus, we will only use the "fish caught" total of the top 3 fish-catching members of a team at each tournament. Fish weight (i.e. - lbs) is not factored in this scoring. Each tournament will count the top3 "fish caught" member totals no matter the number of anglers on a team or the number who participated in the individual tournament.
